from H.W. Harner

A Survey of Virginia's Treasurer's Records,  
Sept 6, 1775 to Dec 31, 1778 inclusive, for all  
entries of payments to Robert Scot. *enclosed.*

Although all of the evidence available,  
is not enclosed with this group of documents  
which enable one to draw the following conclusions,  
that evidence will be forthcoming.

o — o

The small notes of VA's currency dated 17 July 1775  
were printed by Alexander Purdie in Williamsburg  
from Plates engraved by William Waddill and  
Robert Scot; on paper referred to as "Philadelphia Paper".

The notes of Virginia's currency dated May &  
October 1776 were printed by Alexander Purdie  
in Williamsburg from plates engraved by Robert  
Scot and William Waddill (in that order!) again  
on "Phila paper".

The notes of Virginia's currency for May & Oct  
1777 and May 4, 1778 with partially ~~per~~ printed  
date, should also be attributed to the same  
engravers, Scot-Waddill, on "Phila paper" and  
on other paper, the source as yet undetermined,  
again by Alexander Purdie.

The notes of Virginia's currency for May-Oct 1778  
with printed & type set date were printed by

Alexander Purdie in Williamsburg from plates engraved by Robert Scot, exclusively.

These new "Scot plates" contained a new design of Virginia's State seal and corrected <sup>the</sup> spelling of Tyrannis.

o — o

Again, Dr. Newman, all the data used in determining the previous conclusions, will be forthcoming in a later shipment. The volume of material I now have, far exceeded any expectation of what might or could be found. I hope you enjoy!

Sincerely,  
H. W. Harnes Jr

Sir,

you

I requested, about 2 Months ago to send me  
some Type Metal, I likewise mentioned my want  
of it to Mr Webb when he was here, but I  
have never received any. I am now entirely at  
a stand, nor can I proceed further in the Money

presume will answer the purpose. The Plate of  
two thirds which Mr Webb <sup>(SAW)</sup> saw is done, and  
another as far as you see by the ~~specimen~~ <sup>specimen</sup>, which I intend  
as an Original for the succeeding ones; therefore can not  
finish it until the others are begun. The Device of this  
last is also finished. I should be glad of your instructions  
how I shall dispose of the Plates as I finish them,  
which shall be duly observed, by your order. Most

Sincerely yours,

Clerk of the Navy

This is the only record or document found, to date, that indicates Mr. Scots official status as "engraver" to the State. In this ledger style format which begins with Governor Patrick Henry, all of the individuals listed are members of State Government.

It appears that he received this appointment circa May-July 1778, but, by who or whom as of yet, has not been found, but has been seriously searched for.

There are three entities of Government that could have done so; The General Assembly; The Governor & Council; or the Governor alone.

The journal of the General Assembly for the May-June 78 session has been read, 115 hand-script pages, without index, and not found.

The "Journals of the Council of the State of VA." covering Oct 6, 1777 through November 30, 1781, published as Vol 2, 1932; well indexed, was checked, as well as vol I, of the same series, & the appointment not found.

W. W. Henny's "Life & Works of Patrick Henry" <sup>(1891)</sup> 3 vol reprint in 1993 was consulted, in depth, and not found.

All of the enclosed records are copies of Virginia Treasurer's Office Records taken from microfilm, except for Scots letter and pattern note, and are courtesy of the Library of Virginia.

The search continues?

Sincerely,  
H. W. Hamner Jr. 7-21-99
